EDUCATION

St. Xavier's College

Master of Computer Applications

Jaipur, Rajasthan

2024 – 2026

Amity University

Bachelor of Computer Applications

Jaipur, Rajasthan

2020 – 2023

PROJECTS

Digital Bookshelf | *ReactJS, ExpressJS, MongoDB, Open Library API, Axios, JavaScript*

2024

- Engineered a responsive full-stack web application that integrates the Open Library API to enable real-time book search, bookmarking, and personalized shelf management.
- Optimized API communication and data fetching with asynchronous REST endpoints, improving search responsiveness and user experience by over 40%.
- Orchestrated Create, Read, Update, and Delete (CRUD) functionalities utilizing MongoDB and Express.js, streamlining data persistence that ensured optimal management of 2000+ book records with zero data loss.

AI Text Summarizer | *ReactJS, ExpressJS, NodeJS, Hugging Face API, Axios, JavaScript*

2024

- Designed and deployed an AI-driven summarization platform that condenses lengthy articles and documents by up to 85%, generating contextually accurate and concise outputs using transformer-based NLP models.
- Integrated the Hugging Face Inference API for text processing, enabling real-time summarization with minimal latency and high output coherence.

Resume Builder | *HTML/CSS, JavaScript, Express.js, EJS*

2024

- Architected an ATS-optimized resume generation tool to assist users in creating recruiter-friendly documents effortlessly.
- Implemented dynamic export functionality, enabling users to generate downloadable resumes in PDF/DOCX formats.
- Eliminated the need for user registration to simplify the resume-building process.

EXPERIENCE

Open Source Contributor — Hacktoberfest 2025

Oct 2025

GitHub

- Fixed multiple UI/UX layout issues across open-source repositories, including light mode styling, dashboard overflow, and component alignment improvements.
- Implemented Light Mode theme support for a community blog platform (PR 58).
- Added functional features such as a copy-to-clipboard button and a retry-quiz button to enhance user experience (PR 64, PR 49).
- Contributed fixes to financial tracking application layouts, including Expenses and Category dashboards (PR 113, PR 59).

TECHNICAL SKILLS

Languages: Java, C/C++, SQL, JavaScript, HTML/CSS

Frameworks: React, Node.js, Express.js

Database: MongoDB, MySQL

Developer Tools: Git, VS Code, Visual Studio, Postman

Others: Object Oriented Programming, Data Structures And Algorithm

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

Postman API Fundamentals Student Expert

Programming with JavaScript - Meta
